

## **Global Projects Design Fellow**

### **About ARCHIVE Global: Architecture for Health In Vulnerable Environments**

ARCHIVE Global is an international non-profit organization that utilizes architectural design to reduce the global burden of disease. Working within socioeconomically vulnerable communities around the world, we apply innovative, low-cost housing design solutions to improve living conditions and health outcomes for the poorest of the poor.

With projects in over 10 countries and 4 continents, ARCHIVE has directly benefited thousands around the world with improved living conditions and healthier lives. We've also reached over ten thousand people with training, education, and awareness campaigns promoting the vital connection between housing and health.

**Are you seeking to use your skills to help improve health/living standards among the most vulnerable? We have exciting new projects being developed around the world and we need your help!**

### **Our Approach**

- **Research** — We investigate how the built environment contributes to public health challenges globally.
- **Awareness** — We inform communities about best practices to improve health and reduce the risk of disease and strive to bring change at an international level by informing in public policy.
- **Construction** — We design, test, and build practical housing solutions that actively combat poor health.

**ARCHIVE Global is a young, dynamic, and growing organization working in 9 countries. Recent recognition includes:**

- One of 8 “World’s Best Sustainability Ideas” - Forbes Magazine
- OpenIDEO Winner

### **Role**

You will play an important role in creating and implementing international projects. Daily tasks will involve working with the Project Team to research, design, and implement projects that assist vulnerable communities around the world. Reporting to the Project Architect, you will gain experience working in international development, architectural principles, and project management.

## **Required**

- Degree in architecture or related field
- Interest in international development
- Strong design skills
- Excellent research skills
- Excellent presentation skills
- Proficiency in architectural programs: Revit/BIM, AutoCAD and/or Sketch-up
- Proficiency in design programs: InDesign, Illustrator, Photoshop

## **Desirable**

- Master's degree or 2+ years of professional experience in relevant area; experience/interest in international development or related fields

## **Key Skills**

- Impeccable oral and written communication skills
- Ability to work well independently and on small teams while managing multiple priorities
- Must be able to manage multiple deadlines
- Good time-management skills
- Excellent interpersonal skills

Fellows are required to commit a minimum of 3 months (full-time). A stipend is offered to cover meals and travel.

*Candidates must have authorization to work in the United States.*
